PRINTING INDUSTRIES OF AMERICA ★ POLITICAL ACTION COMMITTEE

We'd like your official permission to help the printing and graphic communications industry.

Political action is key to a strong representation of the printing and graphic communications industry on Capitol Hill. As we speak, issues such as labor, tax, health care, postal, and environmental policy are being debated in Congress ... and all have a direct impact on your company's bottom line. It's critical the industry ramp up its political action now. By creating a unified voice through Printing Industries of America's political action committee, PrintPAC, we can work together to elect candidates who understand the real-life impact these issues have on America's businesses.

Will you take the first step in joining your peers today?

What Is PrintPAC?

PrintPAC is the only national political action committee solely representing the printing and graphic communications industry. Its mission is to provide financial resources to elect pro-print, pro-business candidates to Congress. All CEOs and management employees of Printing Industries of America member companies are eligible to contribute to PrintPAC, provided that they are U.S. citizens or legal residents. PrintPAC is not a "good cause" or charity; rather, it is an investment in the printing and graphic communications industry's political visibility and advocacy on Capitol Hill.

What Is PrintPAC's Impact?

PrintPAC allows the printing and graphic communications industry to create a presence on Capitol Hill. By building political relationships with key lawmakers who understand and support a pro-print, pro-business legislative agenda, PrintPAC works to play an active role in shaping the political and legislative atmosphere in the nation's capital.
